

CONRADO FIGARI VECHIO

Product Manager | Product Discovery, Delivery & Growth | PSPO I | Agile

Portfolio: portfolio-product-manager-conrado-f.vercel.app

SUMMARY

Product Manager with experience leading digital product development, cross-functional teams, and technology solutions oriented toward business outcomes. At EPEC, I delivered **6 SaaS modules in 3 months**, improving operational efficiency across a 2,000+ employee company. I work with automation, artificial intelligence, and SaaS products, combining strategic vision, **agile** execution, and close collaboration with users and stakeholders. I'm looking to join **product management** teams at tech startups where I can generate real impact from day one.

WORK EXPERIENCE

Product Owner — Internal Tools & Data Solutions | EPEC

Mar 2026 – Present

EPEC (Empresa Provincial de Energía de Córdoba) · Remote

Delivered 6 SaaS modules in 3 months for a 2,000+ employee energy company, replacing manual workflows across operations, procurement, and management.

Modules: Transformer Stock Control · Service Contract Monitoring · Zone & Family Stock Control · Operational Performance Index (IDO) · SIC Process Tracker · Auction & Tender Analysis

- **Led end-to-end product development** from discovery to launch, gathering requirements directly from managers and stakeholders and translating them into **user stories**, acceptance criteria, and functional specs.
- **Mapped existing workflows** to identify inefficiencies and define the **product roadmap**, prioritizing modules by operational impact.
- Applied **data analysis** using SQL and Qlik Sense to build KPI dashboards and support management decision-making.
- Managed **product launches** for each module, running demos with users, collecting feedback, and iterating continuously.
- Identified operational **pain points** within the department and translated them into digital solutions, working closely with managers and stakeholders to ensure daily adoption — applying **business analysis** and **product development** practices throughout.

Product Owner & Developer — Chingu Voyage 60 | CramerBot

Mar 2026 – Present

Chingu · Remote, International Team

Led **software product management** for CramerBot, an AI trading platform, as Product Owner of an international junior team of 8 (3 devs, 3 analysts, 1 SM) for 3 months.

- Wrote **user stories** and acceptance criteria, ran sprint planning, backlog refinement, reviews, and retrospectives following **Agile Methodology**.
- Stepped into frontend development and fixed backend logic issues when the team stalled, delivering the MVP on time.
- Collaborated fully remote with an international team, communicating and managing all product activities in English.

CEO & Product Owner | Plug Store

2024 – 2026

Plug Store · Remote

- Built and managed a full eCommerce operation on Tienda Nube, handling product catalog, pricing strategy, and customer experience end to end.
- Designed and deployed an AI-powered CRM bot using N8n and ChatGPT API to automate 50 daily customer conversations, reducing response time by 80%.
- Grew TikTok from 0 to 4,500 followers in 3 months with 2M+ organic views, driving a 50% increase in repairs and sales through content-led growth.

Founder & CEO | Plug Store

2018 – 2024

Plug Store · Remote

- Built the business from scratch and kept it profitable and growing for 8 years in a country with constant inflation and economic instability.

VP & President of HR | AVEIT

2016 – 2018

AVEIT (Asociación Vocacional de Estudiantes e Ingenieros Tecnológicos) · UTN FRC

- **Cross-functional leadership:** coordinated ~50 people across HR and sales teams for one year, leading multidisciplinary projects while completing my engineering degree.
- **Results:** 500+ new members (record recruitment) and the highest advertising fundraising to that point.

PERSONAL PRODUCT DEVELOPMENT

Trackr — Personal Finance SaaS

React + TypeScript + Supabase · 2026

Personal finance SaaS built from scratch. Multi-currency, budgeting, savings goals, and financial projections.

Dealr — Local Marketplace PWA

React + Supabase · 2026

Mobile-first classifieds app built after discovery of pain points in Facebook Marketplace in Córdoba. Features structured category fields, offer-with-amount intent filter, blind bidirectional ratings, and product analytics.

CERTIFICATIONS & EDUCATION

- **Electronic Engineer** — Universidad Tecnológica Nacional FRC (UTN FRC)
- **Professional Scrum Product Owner I (PSPO I)** — Scrum.org · Mar 2026
- **Google Project Management Certificate** — Coursera
- **Data Analysis with Qlik Sense** — Udemy

SKILLS & TOOLS
