

CONRADO FIGARI VECHIO

Product Manager | Product Discovery, Delivery & Growth | PSPO I | Agile

Portfolio: portfolio-product-manager-conrado-f.vercel.app

SUMMARY

Product Manager specialized in transforming business needs into scalable SaaS products through **product discovery**, stakeholder collaboration, and **data-driven decision making**. Delivered **7 concurrent internal products in under 6 months** for a **2,000+ employee** energy company while leading **roadmap prioritization** and end-to-end product delivery. Seeking to help fast-growing technology companies build products that create measurable business impact.

WORK EXPERIENCE

Product Manager | EPEC · Córdoba, Argentina

Mar 2026 – Present

- Led the end-to-end delivery of **7 concurrent internal SaaS products** in less than 6 months for a **2,000+ employee** energy company, replacing manual workflows across Operations, Procurement and Management.
- Partnered with business stakeholders to identify **operational pain points**, define product opportunities, and **prioritize the roadmap** based on **business impact**.
- **Led the product lifecycle** from **discovery** and requirements gathering to delivery, **adoption** and continuous improvements.
- Authored **user stories** and **acceptance criteria** while collaborating with **cross-functional** teams.
- Built **KPI dashboards** using **SQL** and Qlik Sense to support **data-driven** product decisions.

Products: Transformer Stock Control • Service Contract Monitoring • Zone & Family Stock Control • Operational Performance Index (IDO) • SIC Process Tracker • Auction & Tender Analysis • Product Master Data

Product Manager | Chingu · Remote | International Team

Mar 2026 – Present

- Led product management for AI-powered startup products, collaborating with an international cross-functional team in English using Agile methodologies.
- Managed the **product backlog** in **Jira**, facilitating sprint planning, backlog refinement, and cross-functional collaboration.
- Authored **user stories**, acceptance criteria, and functional requirements, ensuring alignment between product, design, and engineering.
- Collaborated with an international team of developers and designers across multiple time zones, driving product delivery in a fully remote Agile environment.
- Contributed to **MVP definition**, feature prioritization, and iterative product improvements based on user and team feedback.

Products: Trackr • CramerBot

Business Analyst & Product Strategy — Plug Store · Córdoba, Argentina

2018 – 2026

- **Built and scaled** an eCommerce business serving **7,000+ customers** through sales and repair services, leveraging pricing, demand and inventory analysis to drive business decisions.
- Implemented an **AI-powered CRM automation** using n8n and ChatGPT API, reducing customer response time by **80%** while improving sales operations.
- **Led the end-to-end development** of the company's eCommerce platform, defining business requirements and optimizing the **customer purchasing journey**.
- Grew TikTok from 0 to **4,500 followers** and generated **2M+ organic views**, creating a scalable inbound lead channel that increased sales and repair inquiries by **50%**.

People Operations & Leadership | HR Vice President & President — AVEIT

2016 – 2018

- **Led** cross-functional teams of **50+ members** across HR and Sales, coordinating recruitment initiatives, operational planning and project execution.
- **Recruited 500+ new members**, achieving the highest recruitment record in the organization's history.
- **Led** commercial initiatives that generated the highest advertising revenue in the organization's history through partnerships and sponsorship sales.

PERSONAL PRODUCT DEVELOPMENT

Trackr — Personal Finance SaaS

React + TypeScript + Supabase · 2026

Personal finance SaaS built from scratch. Multi-currency, budgeting, savings goals, and financial projections.

Dealr — Local Marketplace PWA

React + Supabase · 2026

Mobile-first classifieds app built after discovery of pain points in Facebook Marketplace in Córdoba. Features structured category fields, offer-with-amount intent filter, blind bidirectional ratings, and product analytics.
